

MOVE. TOW. carry. HAUL.

Shown with tram package.

MVP

The MVP's innovative design allows the drive axle(s) and battery pack(s) to be located in the multiple positions for the optimal balance in payload carrying capacity, maximum range, and top turning performance.

Utilize the MVP's Speed Rail Attach System to securely up-fit a plethora of cargo modules or application specific equipment and you have a platform that can be deployed in hundreds of configurations.

Perfect For:

- Manufacturing
- Maintenance
- Airports
- Wherever you need a versatile, powerful performer
- Distribution Centers
- Government Facilities
- Colleges / Universities

Shown with vacuum unit and strobe light.

Shown with cab and custom platform.
