

A COMPLETE FAMILY OF INDUSTRIAL CLEANING EQUIPMENT

KEY FEATURES

INDUSTRIES

Š \$\$

Machine Control Panel uses off-theshelf toggle and marine duty switches featuring universal icons which simplifies training.

Vacuum Muffler allows machine to consistently achieve as low as 70 dBA while thoroughly drying the floor.

Squeegee Adjustments made simple toolless maintenance of the squeegee

Fill System features a retractable hose for easy filling on standard sink-faucets and a stainless screen for bucket filling.

Oversized Vacuum Screen Shut-Off quickly arrests overfill issues to protect the Vacuum Motor.

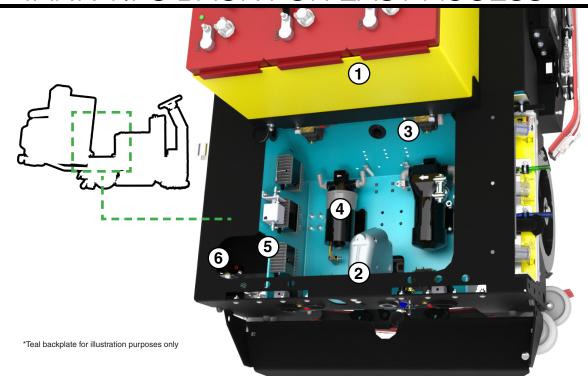

High Performance motors and down pressure provides an unmatched standard of cleaning.

TANK TIPS BACK FOR EASY ACCESS

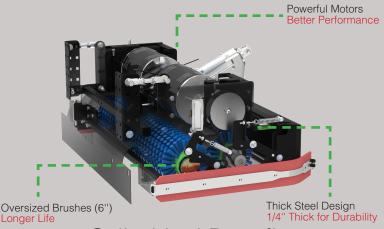

- Service Batteries
- Squeegee Actuator
- Solution Valves
- Pumps
- ZerO3 Generators
- (6) ZerO3 Air Drier

Disk Benefits

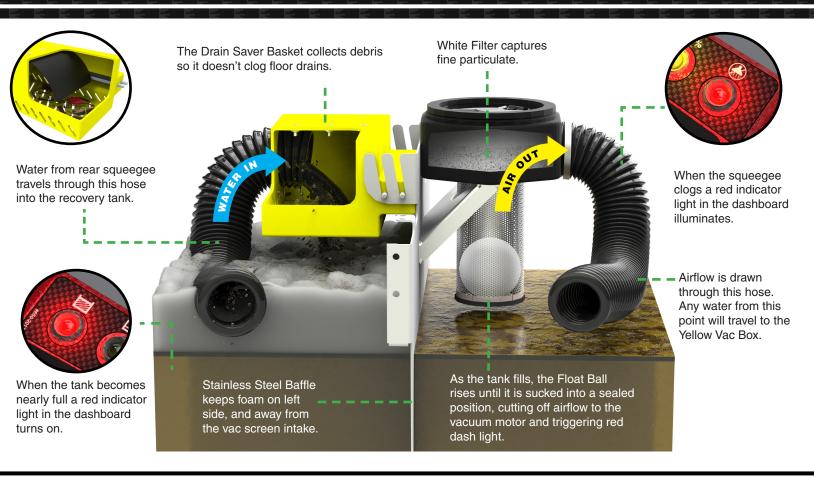

- Brush / Pad Selection
- Lowest Maintenance Cost
- Gimballed Drivers Improves Cleaning On Irregular Floors
- Brushes Individually Driven For Unmatched Performance

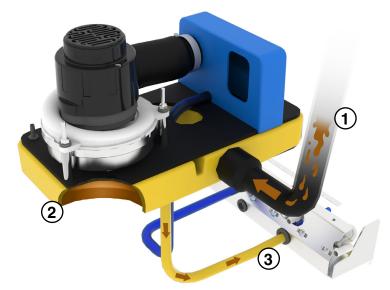

Cylindrical Benefits

- Eliminates Dust Mopping
- Scrub & Sweep Simultaneously
- Superior Expansion Joint Cleaning

RECOVERY AND VAC BOX

Vac Box Unloader

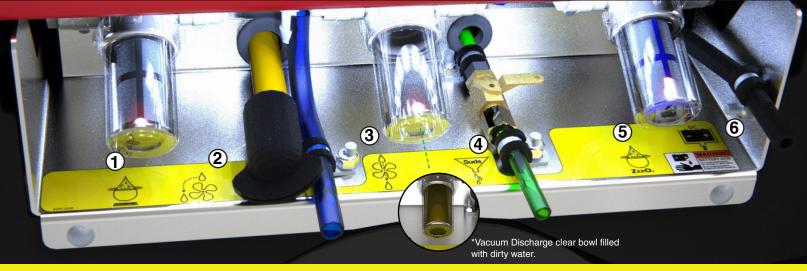

- If dirty solution bypasses the Vacuum Filter Screen & White Filter, it will flow into the Yellow Vac Box.
- The water stays in the Yellow Vac Box chamber due to vacuum pressure and only flows out when the vacuum turns off.
- After shutting off the vacuum, any dirty water inside the Yellow Vac Box flows down to the Service Cabinet and out the unloader valve.

Vacuum Discharge

- In the rare case the Yellow Vac Box overfills, water will pass through the motor.
- Water passing through the Vacuum Motor exhausts in the Blue Reservoir where it will drain down to the Service Cabinet.
- On the Service Cabinet, a clear bowl shows water has passed through the Vacuum Motor. There is an overflow hose so that extra water flows freely out the blue drain hose.

SERVICE CABINET

SOLUTION FILTER:

Standard Solution Feed Filter for scrubdeck.

2

VAC BOX UNLOADER:

Unloader valve for the Yellow

the Yellow Vac Box will drain

Vac Box. Water present in

when vacuum is off.

3

VACUUM DISCHARGE:

Water passed through the

Vacuum Motor will be visible

in the reservoir and excess

will flow from the blue hose Indicates service required.

Suds

SUDS DRAIN:

Drain detergent from Suds

ZERO3 FILTER:

Optional ZERO3 (O3+) Ozone System Solution Filter.

BATTERY DRAIN:

Drain any fluid from Poly Battery Box.

COMMON OPTIONS

Spray Jet allows operators to spray down hard to reach areas

Overhead Guard protects operator from falling debris

<u>Suds</u> - Universal soap proportioning system with two dilution levels

ZERO3 - Chemical free solution created on-site and on-demand

<u>Side Doors</u> protect scrubdeck from impact damage

<u>Side Brooms</u> sweep up against walls and under racking

ALL FOR A DEMONSTRATION

800-634-4060 **(+001)-262-681-3583** www.factorycat.com

Since 1986, our family owned company has been designing, building and supporting the best in floor maintenance equipment. Our FACTORY CAT brand services the world with unsurpassed industrial cleaning equipment, continually exceeding expectations and setting the industry bar that much higher.

We've built our reputation by providing the highest value machines and providing local support via 425 distributors in over 42 different countries.
