

Blue Safety Light

- Alert pedestrians of oncoming forklift traffic
- Perfect for loud environments
- Avoid pedestrian / forklift collisions
- Multi-voltage: 12V - 48V
- 2-high performance blue LED lights
- Greater than 20,000 hours life expectancy
- Full protection for dirt & water resistance
- Die cast aluminum housing
- Spot beam pattern
- Rugged state LED's withstand shock & vibration
- 4 year limited warranty
- Universal mount
- UV resistant polycarbonate lense
- Sealed to IP67 (Table on back)
- 3" x 5" Oval LED

Type EE Rating Information

This covers electric trucks that have, in addition to all the requirements for the Type E and ES Units, the electric motors and all other electrical equipment completely enclosed. It does not protect against temperature activation auto-ignition of explosive mixtures of gases or dusts in the atmosphere.

IP Ratings (Ingress Protection)

A two-digit number established by the International Electro Technical commission, is used to provide an Ingress Protection rating to a piece of electronic equipment or to an enclosure for electronic equipment.

The protection class after EN60529 are indicated by short symbols that consist of the two code letters IP and a code numeral for the amount of the protection. (Table on back)
