

YOUR BUSINESS IS RIDING ON IT.

William – 360 Technician,  
Southeast Industrial Equipment,  
Charlotte, NC

# SERVICE

**TOYOTA 360 SUPPORT**  
THE INDUSTRY'S TOP FORKLIFTS DESERVE  
THE INDUSTRY'S BEST SUPPORT.

Every workday, Toyota 360 Support deploys an army across North America. In fact, every day there are over 3,500 Toyota Certified Technicians and over 2,600 service vans on the job. And no matter where they're working, they all possess the same objective – keeping your forklifts up and running.

**OUR FORKLIFTS RANK NUMBER ONE. SO DO THE PEOPLE WHO SERVICE THEM.**

It's not easy becoming a Toyota Certified Technician. They go to school every year. They train every year. They respond quickly to your needs 24/7 every year. In fact, Toyota Certified Technicians undergo the most rigorous training in the industry.

As a result, Toyota 360 Support's factory-trained specialists keep your Toyota forklifts running at peak performance, ensuring maximum uptime. Whether you have a single forklift or a large fleet, our technicians provide the partnership and the expertise you need to keep your Toyota operating like a Toyota.

**TOYOTA**

**—FORKLIFTS—  
SERVICE**

**FOUR-HOUR EMERGENCY  
RESPONSE TIMES ARE JUST  
AN APP AWAY.**

We hate downtime as much as you do. If your forklift is down, we're on the move. We maintain the industry's largest dealer network, so whenever and just about wherever you need a forklift serviced, Toyota 360 Support technicians can respond to your request within four hours.

And you don't have to jump through hoops to get rapid response times. Just push a few buttons on the Toyota 360 Service Request App. Let us know what you need, and a Toyota Certified Technician is on the way.

**LET TOYOTA 360 SUPPORT PLUS  
EASE YOUR WORKLOAD.**

**360  
SUPPORT  
PLUS**

You have enough to worry about in a normal workday. Why not upgrade to **Toyota 360 Support Plus** and delegate the repair and maintenance of your forklift fleet?

With the added benefits of 360 Support Plus, we'll take control over the planned maintenance of your entire fleet.

**The range of benefits includes:**

- Having more time to think about growing your business instead of monitoring the maintenance of your forklifts.
- Freeing the time it takes to call or wait on a technician to service your forklifts.
- Reducing repair costs by catching problems before they become large expenses.
- Avoiding costly workplace accidents and potential fines by keeping your forklift operators safe with regular inspections.
- Getting a better handle on monthly expenses by putting an end to surprise maintenance bills.
