HIGH-CAPACITY IC PNEUMATIC

THINK BIGGER

- ► Operator Presence Sensing System (OPSS)
- ► EPA/CARB-Certified Diesel Engine 6-Cylinder
- ► Enclosed Operator Cabin

- ► Engine Monitoring System
- ▶ 30000 125000 lb. Capacity
- ▶ Load Center of 24," 36" and 48"

TOYOTA HIGH-CAPACITY IC PNEUMATIC ADVANTAGES

FACTORY BUILT TO ORDER

featuring modular construction including the mast — for greater durability and easier servicing

MD47" TOUCH SCREEN DISPLAY puts ultimate customization, advanced diagnostics, and pertinent forklift information right at your fingertips

EXCELLENT VISIBILITY

is provided from the operator's position in all directions

ADVANCED ERGONOMICS

for optimal comfort and increased productivity

► AXLETECH® HEAVY-DUTY FRONT AXLE

for maximum durability

► AIR RIDE SEAT enhances operator comfort and support

MASSIVE JOBS JUST MET THEIR MATCH

TOYOTA HIGH-CAPACITY IC PNEUMATIC FORKLIFT (THD)

Our biggest forklift is your best weapon for the most demanding jobs. Think ports and shipping containers. Construction sites. Lumber, brick, block, and pipe. Forging and manufacturing. Then think bigger. Think Toyota. With a 6-cylinder CUMMINS* diesel engine, Dana transmission and a lift capacity up to 125,000 pounds, the rugged THD can handle almost any heavy load, even in the most challenging conditions. Ready? The THD is. Let's get to work.

BUILT TO TAKE IT

The might of a CUMMINS 6.7-liter, 6-cylinder diesel engine. The pulling power of three forward and three reverse speeds. And the strength of a rigidly welded frame and extremely durable steer axle. Add an engine protection system and wet disc brakes, and you're set for maximum heavy-duty productivity with minimal downtime. Even the paint is tough. Starting with a two-part, rust-inhibiting basecoat, followed by a two-part polyurethane topcoat. A majority of components are powder coated, too. All for extra corrosion protection. Bring it on, the bigger the better.

POWER, UNDER YOUR COMMAND

All that brawn comes with plenty of brains. A vehicle management system with onboard diagnostics shares useful information and timely alerts on a 7" touch screen multifunction display. Standard fingertip controls provide smooth material handling and variable speed control of all functions. A low-profile counterweight makes the THD easy to maneuver and puts you confidently in control.

COMFORTABLY AT EASE, VISIBLY MORE PRODUCTIVE

An enclosed operator compartment with clear sight lines reduces exposure to the elements while providing superior visibility. A premium air ride seat, heater, and operator fan come standard, keeping operators comfortably productive over the course of a shift. Add a two-stage, wide-view mast — with lift cylinders mounted directly behind the mast rails — and enjoy a reassuringly wide field of vision, too. See more, do more.

COUNT ON THE LEADER

- ► Toyota leads in quality, durability, reliability and value, thanks to advanced technology and the world-renowned Toyota Production System.
- With the broadest and most complete set of materialhandling solutions in the industry, Toyota Dealers specialize in meeting all of your needs — from a single forklift to an entire fleet.
- ➤ Toyota's industry-leading network of dealers backs every forklift with proven product support. Resources include factory-trained service technicians, Toyota Genuine Parts, and flexible leasing and financing packages through Toyota Industries Commercial Finance.

➤ Toyota forklifts have ranked No. 1 in safety and quality since 2002, according to studies conducted by Peerless Research Group.
