EXCELS AT THE INSIDE GAME

THE TOYOTA STAND-UP RIDER. Narrow aisles? No problem. Tight trailers? Taken care of. The Toyota Stand-Up Rider was built to fit in and to stand out, nestling into aisles as narrow as 10 feet, carrying up to 4000 pounds, and reaching lift heights up to 23 feet. Not to mention the ease of entry and exit that will benefit operators who frequently get on and off during shifts. Think dock to stock, multitasking, and all-around indoor versatility. Think reliability and durability, too, from the forklift with smooth, maintenance free AC power to work as hard and long as you do.

STAND-UP RIDER ADVANTAGES

- ▶ **DOCK-TO-STOCK** flexibility and multitasking capability, perfect for racking needs in limited warehouse space

- ▶ **AC DRIVE & LIFT MOTORS** deliver powerful, smooth, and efficient performance shift after shift

- ▶ **EXCEPTIONAL VISIBILITY** through two-post overhead guard, overhead canopy with angled bars and wide-view mast

- ▶ **LOW 8" STEP HEIGHT** eases frequent entry and exit during shift for operator comfort

- ▶ **SIDE STANCE** positions operator for easier, more intuitive forward or reverse travel

- ▶ **BEST-IN-CLASS MANEUVERABILITY** compared to sit-downs of equal capacity, plus greater capacity retention at tall heights

- ▶ **SINGLE-AXIS MULTIFUNCTION CONTROL HANDLE** provides all travel and hydraulic functions for increased productivity and ergonomics

COMFORT RIDE SUSPENSION

UP TO **23**^{FT.}
LIFT HEIGHT

8^{IN.}
STEP HEIGHT

- ▶ **COMFORT RIDE SUSPENSION** employs variable rate springs to increase operator comfort when traveling over docks or uneven surfaces
- ▶ **EXCELLENT PERFORMANCE** including 7.5 mph travel speed
- ▶ **SPACIOUS OPERATOR COMPARTMENT** allows operator more comfort and flexibility of movement
- ▶ **OPTIONAL COMPARTMENT SENSOR SYSTEM (CSS)** functions as a training aid to teach operators proper positioning within the compartment.

PRODUCTIVITY & COMFORT, IN GOOD STANDING

Start with a spacious, well-thought-out operator compartment. Add an ergonomic multifunction control handle to single-handedly control forward/reverse travel, lift/lower, tilt and up to two auxiliary functions. Round things out with convenient entry/exit and a Cushion Ride Suspension, featuring a shock-dampened, floating operator floor to reduce vibration and increase operator comfort. The result? A more comfortable operator and more productive shift. We call it ergonomics. You'll call it getting more done.

AC: POWER TO DO MORE

AC power pays off with real savings over the life of your forklift. Maintenance costs are minimal. And there's less downtime, resulting in more productivity.

AC Advantages:

- Longer runtime between charges
- Lower maintenance costs
- Faster acceleration and better responsiveness
- Controls that are more finely tuned
- Smoother driving experience for the operator

AN INVESTMENT THAT PAYS YOU BACK

Adding a new forklift to your fleet should be an investment that lasts. Toyota demands the best for its customers. It's a forklift with better components and meticulously planned integrated systems that work together to deliver intuitive, dependable performance day after day. Toyota forklifts don't often require service. But when they do, it's fast and easy — by design. And legendary Toyota quality means more productivity over the lifecycle of your forklift, along with lower repair costs. Higher residual value is another bonus.

DOCK-TO-STOCK HERO

The Toyota Stand-Up Rider gives you unique dock-to-stock capabilities, best-in-class maneuverability, and all-around indoor versatility. It navigates narrow aisles and tight trailers like a true pro, and keeps its operator comfortably productive even over a long shift. Best of all, it's a Toyota — proven the most dependable and reliable line of forklifts you can buy.
