

WHAT IS MYINSIGHTS® AFTERMARKET KIT?

MyInsights® Aftermarket Kits are compatible with specific Toyota Forklift equipment and select competitive equipment, enabling you access to all of the benefits of MyInsights® standard telematics with just one easy installation. This means you can monitor your Toyota fleet's performance, transforming the way your operation maximizes productivity. As the only material handling manufacturer to offer standard telematics, Toyota is committed to helping you accomplish your business goals by focusing on connectivity to maximize your operation's productivity and efficiency.

Note: Wired Hour Meters on Legacy Vehicles may have variability.

WHAT DATA WILL I RECEIVE?

After installation, the MyInsights® Aftermarket Kit pulls telematics data points, which include:

- ▶ **Key Hour Meter Readings** – Eliminate manual hour tracking and optimize usage to minimize long-term costs
- ▶ **Error Codes** – Gain insight into equipment errors and maintenance issues that may require service
- ▶ **Impact Detection** – Visibility to impact events that may indicate equipment or facility damage
- ▶ **Equipment Location** – Increase fleet awareness and know your equipment's last known location

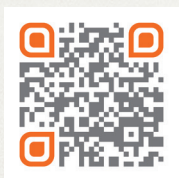

Optional Display and Combined Kits are now available! Enhance your fleet with displays that enable the MyInsights® Compliance Package, featuring a pre-operational checklist, checklist due alert, checklist reporting, and truck information.

HOW WILL I SEE MY DATA?

Standard telematics data through MyInsights® is available through the MyToyota Portal. A MyToyota Account provides you with actionable data, fleet insights, and consultative analysis that can help elevate your business to new heights. Learn more about MyToyota by visiting: toyotaforklift.com/mytoyota.
