The Flexi® Solution

SUNBELT MATERIAL HANDLING

Flexi

The Flexi® articulated forklift maximizes warehouse space by expertly maneuvering narrow aisles. Its unique curved TrueRadius™ chassis minimizes rack and product damage. Equipped with separate drive, lift, and steer motors, Flexi ensures the smoothest available operation without hydraulic interference. For optimum operator visibility, the twin-post overhead guard and "clear view" mast offer the best sightlines of any articulated forklift. Flexi® increases storage by 30% and 50% over reach and counterbalance trucks, respectively. Flexi's ability to collect directly from marshalling/unloading/loading areas without the need for additional MHE offers a true 'one truck, Road-to-Rack™ solution.'

Flexi®
15VN / 1000

The Flexi® 15VN offers 230° Over-rotation™ in a narrow 40" TrueRadius™ Chassis. Its 2,850lb capacity operates in the most narrow aisles. A pioneer of articulated forklift trucks, lifts to 25ft.

Flexi®
17N / 1000

The Flexi® 17N offers 220° Over-rotation™ in a narrow 40" TrueRadius™ Chassis. Its 3,300lb capacity is ideal for higher lift capacities with the same 40" chassis, lifts to 27ft.

Flexi®
20S / 1200

The Flexi® 20S offers 220° Over-rotation™ in a narrow 48" TrueRadius™ Chassis. Its 4,400lb capacity is the most popular model in our range, lifts to 34ft.

Flexi®
22S+ / 1250

The Flexi® 22S+ offers 220° Over-rotation™ in a narrow 50" TrueRadius™ Chassis. Its 4,800lb capacity is a heavy duty model designed for higher capacity and greater lift heights, lifts to 36ft.

Flexi®
25W / 1350

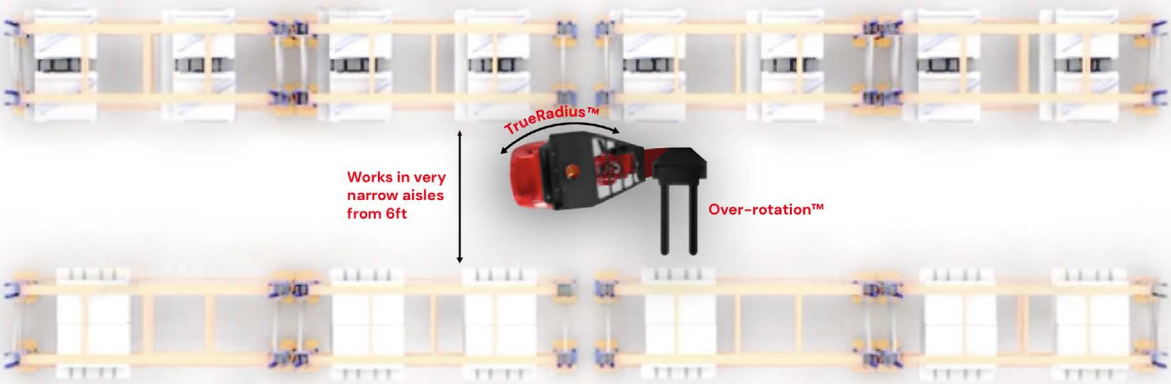

The Flexi® 25W offers 220° Over-rotation™ in a narrow 53" TrueRadius™ Chassis. Its 5,500lb capacity is specifically designed for safer load handling at the highest levels, to over 40ft.

Optional extras

- Double deep forks
- High visibility camera system
- Front facing blue LED spotlight
- Integrated hydraulic fork positioner
- Red LED perimeter safety lighting
- A variety of attachment configurations

The Flexi® Solution

Easy Access Battery

A range of lead acid batteries, through to fully integrated lithium-ion solutions.

Unique Flexi® 220° Over-Rotation™

The 220° Over-Rotation™ feature maximizes stacking clearance, ensuring smooth operation and precise turns in the narrowest aisles.

Compact Front Wheel Drive Design

Smooth front wheel drive with differential axle allows for the most efficient traction setup of any articulated forklift.
