

SLR950 Series

Automatic Truck Restraint

Dependable, Affordable Safety that's Easy to Install.

PIONEER's SLR950 Truck Restraint makes automatic dock safety affordable and easy. With just the push of a button, the SLR950 provides in excess of 32,000 lbs. of holding strength for additional safety against unexpected truck movement. The unit's operating system is completely self-contained within a heavy-duty steel console for protection from dock debris, the elements, and accidental damage.

Warranty

PIONEER offers a 1-year warranty on structural members. A 1-year warranty is provided on mechanical and miscellaneous parts (including materials, labor, and freight).

Guarantee

PIONEER will provide our standard warranty or match any documented competitive warranty in the industry for comparable models. There is no fine print. We build it and we guarantee it!

SLR950 Series

Features & Specifications

All PIONEER Truck Restraints meet 1998 ICC regulations.

Durability

- Bolt-hole Pattern Design provides optimal holding force.
- The SLR950 is an impact-style vehicle restraint which combines an advanced communication system with a low-profile carriage and an impact extension bar that accommodates a wide range of lower R.I.G.'s (rear impact guards).
- Fully automatic unit provides Restraining Force in excess of 32,000 lbs.

Easy Installation

- Mounts directly to face of new or existing dock above ground level keeping the motor clear of flooding water and debris.
- Recommended Factory Consultation available for dock heights of less than 48" or 24" deep pits.
- Note: As with all electrical equipment, this unit should not be immersed or submerged. Contact Pioneer for alternative solutions.

Simple Operation

- The unit is positioned to the correct height for each individual trailer by the trailer itself.
- Fully automatic unit provides reliable operation with simple, Push-button Control.

Safety

- Hook captures and holds legal R.I.G.'s. from 9" to 27" off ground.
- Positive Hold Feature maintains R.I.G. contact with hook while allowing free float with vertical truck movement.
- Automatic Restraint Hook is released and retracted effortlessly by dock attendant with just the touch of a button.
- The SLR950 Communication System includes inside/outside Traffic Light Signals and Driver Warning Signs.
- Fully Enclosed Operating System guards against physical and electrical overload.
- Automatic Warning Alarm sounds if the hook does not capture the R.I.G.

NOTE: When the Pit Leveler lip length exceeds 18"
Pit depth exceeds 20" notify factory.

Rugged. Dependable. PIONEER.
